Subject: RE: DRAFT DELIBERATIVE - TCEQ PM10 Exceptional Event Demonstration for 12-23-2020

Hi Tim,

I have finished my preliminary review of TCEQ's draft EE. I didn't see anything that stood out and all of the applicable sections were there. The only real comment that I have and it is not a must correct item, just my opinion, is for Section C-1 at the end with TCEQ webpage examples. Figures C-1 through 3 might confuse people since they don't apply to the actual date of the incident. I believe the pages are examples from Nov. 3, 2021. I understand the purpose of the examples, to show what TCEQ's webpages look like, but since they aren't using the date range of the exceptional event it's a little confusing. Again this is just my observation and it doesn't really have any bearing on what I will be looking for when I do the full review of the final demonstration.

If you have any questions please let me know and I will be looking for the final from you in the future.

Josh

Thanks Tim. I'll start looking it over for you and I'll get to you if I need anything and/or when I complete my review.

Josh

Subject: DRAFT DELIBERATIVE - TCEQ PM10 Exceptional Event Demonstration for 12-23-2020

Josh,

Attached for your preliminary review prior to public posting is the draft of a PM₁₀ exceptional event demonstration (12/23/2020) for the Socorro Hueco and El Paso Mimosa monitors in El Paso County. We would like to politely request that any comments, a notification of completeness, or a request for additional information be returned within 30 days.

Thank you,
Tim
